

TOM CLARK

LIFESTYLE HOST.

NEWS ANCHOR

PROFILE

In my 25+ years of my career, I have been a Lifestyle TV Host, Major Market On-Air morning personality, Sports Announcer-On-Air and in Arena, Master of Ceremonies and Corporate Spokesperson for various Fortune 500 companies. My success has been a result of my on-going honing of my interviewing skills, genuine approach to finding truth, packaging stories to create high engagement, being true to myself and helping others on their journey since I've been blessed. With an entrepreneurial approach to my career starting in radio and then moving to TV, I enjoyed becoming a successful actor with SAG/AFTRA, but I'm excited about returning to my first love, which is TV. It comes natural to me while connecting with all walks of life. My work behind the scenes is the real key to my success. I assist with researching and writing packages along with creating idea generating for Local News, National Events and Lifestyle Programming. I also enjoy getting into the community to make a difference. I appreciate and support the entire team with the united goal of making compelling content, and doing so with high integrity, character, professionalism and fun.
